floxgy rs. Bess .- Our State is being filled in every part of her wide domain with swarms of the industries honey-bee, yet we have but little honey as their project. Notwithstanding the many thousand hives he will leave Rome on no condition, bees imported into this State, honey is no more plentiful than it was prior to their importation. Pure sney is to-day worth one dollar per pound in the sarket, and is not plentiful at that,

STEAM FIRE ENGINE .- San Francisco has been prosited with a Steam Fire Engine, but so far it had not arisfiel public expectation. The Bulletia says : The Monamentals took the steam fire engine to the corner a Dapont and California streets this morning, to give her a public trial. At 20 minutes to 11, the fire was ghiel. Four and a half minutes after, the first eam was evident. At 10 ming tes to 11, there were 5 mands of steam on. Three minutes later there were 100 pounds on. When the steam stood at 120 pands, through 12 inch nozzle, she threw water 178 et. Before they got through the trial, the engine broke down.

PACIFIC TELEGRAPHIC PLANS .- The New York Herall learns that there is now a fair prospect of having a continuous line of telegraph completed, from the restern boundary of the Pacific, within the time pregriled by the terms of the bill passed at the last session of Congress. The work is to be carried through by the Western Union Telegraph Company, which supposes to build and equip the line according to the contract, and within twenty months.

ACCIDENT AT THE DRY DOCK -Whilst the U. S. Dry Dock was taking up H. B. M.'s steamer Termagant, on the 22d Sept., the shoring of one of the sections is supposed to have slipped out and let the weight of the ship fall upon the second section, which immediately gave way, and thus caused the ship to beel over on her side, carrying everything with her. One entire sile of the dock is lying a wreck, and the other is still up out of the water. Many of the workmen jumped into the bay. The crashing was tremendous, and was heard very plainly at Vallejo. The wreck will likely have to be cut away before the ship can be VANCOUVER'S ISLAND .- By the arrival of H. B.

M's ship Ganges, from Victoria, V. I., we have papers from that place to the 8th of September. Supplied of Victoria. - The Victoria Gazette of the 8th September, says that since the 7th of August, there had arrived and cleared from Victoria the fol-

lowing vessels, none of them less than 20 tons;

Steamers, 23; ships, 4; barks, 5; barkentines, 2;

brigs, 2; and schooners, 37; besides, over 100 small sloops and schooners, carrying 15 tons and less. THE COLLEGE OF CALIFORNIA .- The Pacific says: The value of the property belonging to the College is estimated at about \$30,000. On this there has been an incumbrance for some time, as near as can be estimatel, of \$10,060. It may be more. A part of this with becoming due with the prospect of an unpleasant In suit if it was not promptly paid, the Trustees resived to raise not less than \$15,000. Subscribing liberally themselves, one of their number, the Rev E. B. Walsworth of Marysville, assisted chiefly by the Rev. E. S. Lacy, and at times by other members of the Board, undertook to raise the amount. In fifteen working days Mr. Waisworth and his associate raised the \$15,000, and mostly all of it in this city. A part of the money is in the bank, the rest to be paid when called for. In addition to this, lumber has been given nearly enough to enclose the College site. The College now is out of debt; not a dollar, so far as we can learn, will rest upon it in any way, shape or

We left Ascension, on the return voyage, on the 6th The Genoa papers publish a dispatch announcing of August, and on the 13th touched at Strong's Island. We left again on the next day, and on the 18th arrived at Ebon, but although the wind had been fair for entering the lagoon until we reached the island, which was in the evening, before morning it was We lay off and on four days, spending the Sabbath with Rev. Mr. Doane and giving Dr. Gulick time to complete his arrangements for visiting the Sandwich

Mr. Doane's congregation on the Sabbath was large and very attentive, and his prospects for usefulness seem to be very encouraging. While here we landed three natives of the island, who had been kidnapped a few months previously by the ship Moctezume, Capt. Tinker, but had succeeded in escaping from his ship at Ascension. The poor fellows were overjoyed to get back to their home again, and the king and chiefs expressed much gratitude to us for returning them. Such acts of lawlessness as this are dangerous as well as wrong, and may result in fearful retribution upon innocent heads. We sailed for Apaiang positive terms, that in the event of Garibaldi taking on the 22d, reaching that place on the 30th where we remained five days, leaving Sept. 4th, and reached Tarawa the same day, where we left the Rev. Mr. Mahoe, of Apaiang, and Mr. Haina, who came with us from Honolulu. Mr. Aia, our other passengers NAPLES AND GARIBALDI .- The Paris correspondent from Honolulu, was left at Ebon. The chiefs and people of Tarawa were very much pleased at the location of missionaries among them, and promised them protection and kind treatment. The entrance to the lagoon at this island is on the west side, about five miles north of the southwest point, and is marked by a blue water channel, which is deep and safe about t of a mile wide, and three fathoms of water may be found on the reef anywhere within half a mile north

The Morning Star has been gladly welcomed by both the chiefs and people of all the islands and groups we have visited, and so far from her being in danger among these savage tribes, I am confident they would willingly take up arms in her defense. She is becoming well-known in all that part of the Pacific, and is everywhere hailed as the messenger of peace. I am under obligations to Capt.
